

Fox Croft Village and Fox Croft Village South

Location: Martinsburg, West Virginia

Project Description:

- Fox & Associates, Inc. was contracted by Mr. Bruce Van Wyk in 1978 to perform surveying and engineering services for Fox Croft Village, a Mixed-Use commercial and residential development (the first of it's kind in the Eastern Panhandle) in the City of Martinsburg, West Virginia. Our services included preparation of site infrastructure design including Fox Croft Avenue from King Street toward the south end of Viking Way. Also included were subdivision and site plan services for single family homes (Fox Croft Meadows), apartments, professional office buildings, a retail shopping center and multiple commercial pad sites. In the mid 1980's, Mr. Van Wyk retained Fox & Associates, Inc. to begin survey and design services for Fox Croft Village South (a commercial development) as an extension of Fox Croft Village through to connect with Route 45. Fox performed services for a number of additional commercial sites in Fox Croft Village South.

Below is a list of projects fully surveyed, engineered and platted by Fox & Associates, Inc.:
